## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 25, 2010 has been entered.

Claims 11-22 are pending in the instant application.

### ***Allowable Subject Matter***

Claims 11-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 11, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 11, and specifically comprising the limitation wherein a magnetic energy generator comprising a pair of magnetic members each with a facing side and an opposite outer side, and a first indented groove formed at a position of the facing side of the magnetic member wherein the magnetic members are arranged such that the magnetic members are securely positioned in an edge-to-edge position to allow the first indented groove of each magnetic member to substantially align to form a magnetic air gap within the indented grooves of the magnetic members, an insulated frame provided onto the magnetic

members, and an electromagnetic coil comprising an enameled magnetic wire repeatedly wound on the insulated frame on the magnetic members.

Regarding claims 12-16, claims 12-16 are allowable for the reasons given in claim 11 because of their dependency status from claim 11.

Regarding independent claim 17, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 17, and specifically comprising the limitation wherein a magnetic energy generator comprising a pair of magnetic members each with a facing side and an opposite outer side, and a first indented groove formed at a position of the facing side of the magnetic member wherein the magnetic members are arranged such that the magnetic members are securely positioned in an edge-to-edge position to allow the first indented groove of each magnetic member to substantially align to form a magnetic air gap within the indented grooves of the magnetic members, an insulated frame provided onto the magnetic members, and an electromagnetic coil comprising an enameled magnetic wire repeatedly wound on the insulated frame on the magnetic members, and a light body having an inner cavity and comprising a fluorescent coated onto the inner cavity, an inert gas and mercury within the inner cavity wherein the light body is arranged to securely mount .

Regarding claims 18-22, claims 18-22 are allowable for the reasons given in claim 17 because of their dependency status from claim 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
